the mahābhārata has been explored extensively as a work of mythology epic poetry and
religious literature but the text's philosophical dimensions have largely been under appreciated
by western scholars this book explores the philosophical implications of the mahābhārata by
paying attention to the centrality of dialogue both as the text's prevailing literary expression and
its organising structure focusing on five sets of dialogues about controversial moral problems in
the central story this book shows that philosophical deliberation is an integral part of the
narrative black argues that by paying attention to how characters make arguments and how
dialogues unfold we can better appreciate the mahābhārata's philosophical significance and its
potential contribution to debates in comparative philosophy today this is a fresh perspective on
the mahābhārata that will be of great interest to any scholar working in religious studies Indian

the work of michèle le dœuff creatively disrupts established notions of what philosophy might be far from being a discipline about the leader and the disciple a hierarchy of knowledge and paternalism le dœuff proposes a philosophy of dialogue and friendship the conversations in this book explore how this philosophy can be enacted and explored and show how openness and generosity can be the starting point of truly rigorous thinking introduced and curated by the late philosopher pamela sue anderson in dialogue with michèle le dœuff explores themes like contemporary feminism joy in philosophy memory the significance of friendship to thinking and a key le dœuffian concept the imaginary le dœuff s interlocutors including penelope deutscher elizabeth fallaize and meenda dhanda are some of the most significant thinkers in the fields of feminism and continental thought and provide insights and ways into considering philosophy as a profoundly dialogical exercise

religious toleration is much discussed these days but where did the western notion of toleration come from in this thought provoking book gary remer traces arguments for religious toleration back to the renaissance demonstrating how humanist thinkers initiated an intellectual tradition that has persisted even to our present day although toleration has long been recognized as an important theme in renaissance humanist thinking many scholars have mistakenly portrayed the humanists as proto enlightenment rationalists and nascent liberals remer however offers the surprising conclusion that humanist thinking on toleration was actually founded on the classical tradition of rhetoric it was the rhetorician s commitment to decorum the ability to argue both sides of an issue and the search for an acceptable epistemological standard in probability and consensus that grounded humanist arguments for toleration remer also finds that the primary humanist model for a full fledged theory of toleration was the ciceronian rhetorical category of sermo conversation the historical scope of this book is wide ranging remer begins by focusing on the works of four humanists desiderius erasmus jacobus acontius william chillingworth and jean bodin then he considers the challenge posed to the humanist defense of toleration by thomas hobbes and pierre bayle finally he shows how humanist ideas have continued to influence arguments for toleration even after the passing of humanism from john locke to contemporary american discussions of freedom of speech
